CHAIRMAN'S REPORT FOR 2010

ACTIVITIES

During BOBCATSSS conference in Parma Open Board meeting was held with 16 representatives from 12 countries among them 3 members of the Board. The Minutes of the meeting were published in the Newsletter 25.

The members of the Board assisted in negotiations for the next two Bobcatsss conferences. For the year 2011 it was confirmed that the hosting institutions will be Informationsberuf in Eisenstadt, Austria and Berszenyi College, Szombathely, Hungary joint by Oslo College, Norway.

Due to the fact that 2012 will mark the 20th anniversary of BOBCATSSS symposiums everyone agreed that Netherland should be the host for 2012.

The Parma Symposium was a successful meeting due to the special efforts and great organization by the hosts.

Bobcat of the Year 2009 was awarded to professor Ragnar Audunson, Oslo College, Norway.

COOPERATION plans and efforts

The Section for Education and Training (SET) and the Section for Library Theory and Research (LTR) of the International Federation of Library Associations and Institutions (IFLA), the Association for Library and Information Science Education (ALISE) and the European Association for Library and Information Education and Research (EUCLID) agreed upon the organization of the IFLA pre-conference satellite meeting in Boras, Sweden. The conference was held on August 9 and 10 and was hosted by the Swedish School of Library and Information Science in Borås, Sweden, on 8-9 August 2010.

Despite the fact that Tatjana Aparac Jelusic attended EBLIDA Council Meeting in Vienna in May 2009, when it was decided that ILEG – Information and Library Education Group – and Euclid should organize joint conference in 2011 at the University of Zadar, no further steps were taken due to the fact that ILEG did not confirm its participation.

THE FINANCIAL SITUATION

Although EUCLID is far from a rich organization, the financial situation has been developing in a better direction. Though, it has to be stressed that not all member institutions paid their membership fee although all invoices were sent from the Secretary to all institutional members as well as to potential candidates.

On EUCLID's account there is now approximately EUR 2.500.

EUR 1.200 was spent on the design and maintenance of the web site and e-proceedings of Boras Conference. In addition University of Zadar, Department of LIS has supported EUCLID with EUR 1.000 in 2009 and 1.000 in 2010, for chair's travelling expenses and work time. The University of Zadar has also supported EUCLID with a part of secretary's work time.

Chair of the Board, Tatjana Aparac-Jelušić, submitted report. In the discussion the information about the American iSchool Conference, 2010 was shared especially in regard to the Panel discussion on European information science and education. This panel was proposed, accepted by the programme committee and performed by EUCLID members.

Chair rose issues of not paying attention to invoices which were sent to members of EUCLID last year. It was suggested to review contact list that is in charge of the payments of members. Maybe there was no appropriate contact and invoices were "lost" in emails.

Discussion on future actions was a fruitful one.

Anna Maria Tamaro reported on project: Towards "europeisation" of LIS education: Bologna Process impact for students' mobility, recognition and learning quality.

Board members voted for official support for the project (questionnaire will be distributed through EUCLID website; financial support if possible; distribution of information about LIS schools in Europe)

Terry Weech suggested to check which European LIS schools are both members of ALISE and EUCLID. Suggested to cooperate internationally: ALISE and EUCLID, for example.

Chair mentioned [AEW 2011 - ASIST European Workshop](#) which was in preparations to be held in Cork. Information is on EUCLID website.

Database of research projects in European LIS schools provoked several suggestions. Information about European LIS schools was harvested from the websites and it will be distributed to all members of Euclid to verify and correct the data. The same information will be distributed to Anna Maria Tammamaro for the project mentioned Ad. 3.1.
